

APNIC 53 Policy Proposal Outcomes

Outcomes of Policy Proposals discussed at APNIC 53

An Open Policy Meeting (OPM) at the APNIC 53 online conference considered the following proposals.

Reached consensus

The following proposals reached consensus at both the OPM and later at the APNIC Annual General Meeting (AGM). The APNIC Secretariat will implement these policies within three to six months from the time of APNIC Executive Council (EC) endorsement.

- [prop-142](#): Unify Transfer Policies Text
- [prop-143](#): ASN to Customer
- [prop-144](#): Reserve pool under Experimental Allocation Policy

Abandoned

- [prop-137](#): IPv6 assignment for Associate Members

This proposal did not reach consensus at APNIC 52. A new version of the proposal was not submitted for discussion at the APNIC 53 OPM. Consequently, the Policy SIG Chairs abandoned the proposal.
