APNIC 55 Policy Proposal outcomes

Outcomes of Policy Proposals discussed at APNIC 55

An Open Policy Meeting (OPM) at the APNIC 55 conference considered the following proposals.

Reached consensus

The following proposals reached consensus at both the Open Policy Meeting and later at the APNIC General Meeting (AGM). The APNIC Secretariat will implement these policies within three to six months from the time of the APNIC Executive Council (EC) endorsement.

- prop-147: Historical resources management

- prop-150: ROA/whois object with private, reserved and unallocated (reserved/available) origin ASN

- prop-151: Restricting non-hierarchical as-set

Not put forward for consensus

- prop-149: Change of maximum delegation for less than /21 total IPv4 holdings

The proposal was not put for consensus and will go back to the mailing list, as the version discussed at the OPM was not the same version submitted to the mailing list.
