The Chair of the Executive Council called the meeting to order at 11:00 am UTC + 1000.

1. APNIC 30

The EC was briefed by the APNIC Communications Area Manager, German Valdez on the situation in Thailand regarding the current situation of civil unrest in the country, noting governmental advisories from the US, UK and Australian travel advisory centres concerning travel to Bangkok. The decision regarding whether to proceed with the Bangkok location for APNIC 30 cannot be deferred beyond this week before incurring cancellation penalties and disrupting the associated promotion campaign for the meeting.

The EC was mindful of the concerns of safety for the delegates to the meeting and was also mindful of the concerns of corporate participants who may be unable to support participation in the meeting in the event that the current advisories prevail in the coming months.

The EC took the decision not to proceed with APNIC 30 in Bangkok. The EC considered alternative options and decided, via an electronic vote conducted on the 14th May, to hold APNIC 30 at a suitable venue located at the Gold Coast in Australia, on the same dates as originally planned.
