  - Allocation manager
- **New (& under development)**
  - Integrated contacts database
  - Business workflow analysis

Automated ISP Request Parsing

Automated ISP Request Parsing

ASIA PACIFIC NETWORK INFORMATION CENTRE

Policy Developments

- **PI/PA policy consistent**
  - To have a clearer and consistent expression of **one** means by which to recieve PI/PA space
- **'Rough' consensus at last meeting**
  - More discussion needed but APNIC should change policies in the interim to improve transparency
- **New policy details for /20 PI/PA**
  - /22 used from upstream
  - Applicant agrees to renumber

Service Developments

- RIPE DBv3
  - Testing now but 6-9 months behind RIPE NCC
  - Public beta with APNIC data
    - Now working on update of schema
- IRR
  - 8 week pilot project
    - To document operational requirements and highlight deployment issues

APNIC Update
